Planting By The Moon

BY LIRVA

Planting by the Moon – April 2011

The days of doom and gloom are coming to an end. There is still much to be cleared and mended, but as we enter a time of competitiveness and self-assertion our spirits will be lifted.

- | | |
|--------------------|--|
| 4 April | New Moon. |
| 5-7 April | This is the best time for planting out or sowing leafy annuals – silver beet, fennel, cabbage. |
| 10-11 April | Next best time for leafy annuals. |
| 12 April | Best time for fruiting annuals – sweet corn, pumpkin, squash. |
| 16-17 April | Next best for fruiting annuals. |
| 19-20 April | Best time for root crops – beetroot, potatoes, try chicory for something different. |
| 23-24 April | Next best time for root crops. |
| 25-30 April | Garden maintenance time. Keep those weeds under control. Dry flowers/petals and collect seed pods for kitchen pot pourri. |

Good Plantings – *Lirva*.
